DERMOMAT SYSTEM AZETT DISPENSER SYSTEM

**Our unique dispenser system –
one system = many solutions**

Our new DermoMat dispenser concept, paired with the latest, reliable dosing technology, offers the solution for our washing lotions, disinfectants, rough hand cleaners, skin protection and skin care products.

One solution, one concept for almost all areas:

Administration, office, catering, industry, workshop, toilet seat disinfection, showers, food sector

What characterises the new system:

I don't have to decide which dispenser I want to position which product in I can adapt the product to the current situation at any time and not the dispenser.

Hand hygiene goes digital

Digitalisation has reached skin protection and hand hygiene, and is making great strides.

Our intelligent dispenser system provides hygiene managers with important data to draw conclusions about hand hygiene and the prerequisites for the most important measures and decisions. A corresponding software solution is available for this purpose. This effectively supports the management of washrooms in public buildings such as offices, shopping centres or sports stadiums, and offers countless benefits for facility management in particular.

General Benefits:

- Small assembly surface
- Standardised appearance
- Simple commissioning
- Easy operation with little effort
- Compact, space-saving housing
- The lock-out function only allows the use of your cartridges
- High-quality ABS plastic

Optional: upon request

- Drip tray
