## SPF 50 SUN PROTECTION

# UV|Stop! 50

**SUN PROTECTION CREAM SPF 50 | WATERPROOF**  
Comprehensive protection against UVA, UVB, UVC radiation

### Description:

- Sun protection cream (O/W emulsion), for effective protection against UVA, UVB and UVC radiation
- High, stable protective effect in the entire UV range and throughout the entire application period (photostable)
- Waterproof
- Quickly absorbed
- Moisturising
- Fragrance-free
- With panthenol

### How to use:

- Apply UV Stop 50 generously and carefully, 15 minutes before exposure to sunlight or UV rays
- Re-apply after intensive contact with water or cleaning agents, after heavy perspiration or after drying off
- The duration of protection is 50 times longer than on untreated skin and is not extended by repeated application
- Sunscreen products cannot provide complete protection against UV radiation

### Field of application:

- Protects the skin from intense sunlight when working and spending time outdoors
- Protects the skin when welding and working under technical UV lamps, e.g., when drying paints and printing inks, hardening plastics, etc.
- Suitable for all skin areas, including the face
- Can also be used for leisure activities and sports

### Benefits for the user:

- High protective effect in the entire UV range
- UV-Stop 50 fulfils the current standards of the EU Commission according to 2006/647/EC for UVA protection
- Due to the high UVC protection in the commercial sector, it is very suitable for use with technical UV lamps and welding
- With moisturising ingredients
- Provides protection, thanks to water resistance, even when sweating
- Particularly high user acceptance
