

UV STOP CREME

UV LIGHT AND SUN PROTECTION CREAM

EXTENSIVE PROTECTION

HIGH LIGHT PROTECTION – SPF 50

Description:

- Sun protecting factor 50
- Suitable for all skin areas including faces
- Free of silicones
- Waterproof
- Protects the skin from UV radiation from the sun and from technical UV equipment
- Can be applied before and during work
- Free of substances that are harmful to coral reefs*
- Free of octocrylene

Application area:

UV Stop Creme protects the skin while being outdoors or from intensive sun radiation. Also protects in welding and while working under technical UV lights, for example while drying inks and varnishes, hardening plastics etc. UV Stop Creme is suited for all areas of the skin, including the face. Of course our product can also be used for the leisure and sports sector.

Application / dose:

Apply generously and disperse the cream circa 15 minutes before the exposure to sunlight or UV radiation. Reapply after intensive contact with water or cleaning agents, after strong sweating or after drying off. The duration of the protecting effect is 50 times longer than that of untreated skin. It is not extended by repeated application.

* Both of our UV protection products are free of substances that are harmful to coral reefs according to the HEL list and are therefore "Coral Reef Friendly"

Benefits for the user:

- High protecting effect against the entire UV range
- UV Stop Creme complies with the new regulations of the EU commission according to 2006/647/EC for UVA protection
- Perfectly suited for the commercial sector where technical UV lights are used and in welding because of its high UVC filters
- With anti-inflammatory and moisturizing ingredients
- Protects even while sweating because it is waterproof
- High user acceptance

Restrictions in use:

UV Stop Creme is designed to protect the skin against variable UV exposure. For the treatment of active skin diseases a doctor should be consulted. The application of UV Stop does not replace other prescribed measures. Avoid the intense midday-sun. Even sunscreens with a high UV sun protection factor does not provide complete protection from UV lights. AVOID CONTACT TO TEXTILES – PERMANENT STAINS!

First aid:

If the product accidentally comes into contact with eyes rinse carefully with plenty of water (eye wash). If you feel any irritation afterwards please consult a doctor.

Storage instructions:

UV Stop Creme can be stored in closed containers at least for 30 months at a temperature of 5-20 °C. After first use, UV Stop Creme is durable for at least 12 months. Do not store at temperatures over 25 °C or exposed to the sun.

Regulations:

UV Stop Creme is subject to the food act, the consumer goods ordinance, the feeding stuff and cosmetics regulation and does not fall under the detergents regulation, transport regulations according to the dangerous goods regulation or the ordinance on hazardous substances.

UV Stop Creme belongs according to the workplace ordinance as a skin protection cream to the equipment of sanitary areas and has to be provided free of charge by the employer.

Safety data sheet available on request.
