

CLARAMAT

FOR DISHWASHERS

REGENERATING SALT

WATER SOFTENING

Beschreibung:

- The result is noticeable softer water
- Coarse grained

Application area:

Using regenerating salt makes it beneficial in a number of different ways. After all, soft water not only provides more convenience. With its declining power requirements and sustainable savings in washing and cleaning agents, you take both a load off your wallet and the environment.

Application / dose:

Fill the salt reservoir of your dishwasher

Precautions:

Keep out of reach of children.

Benefits for the user:

- Water softening
- Coarse grained

Product quality:

The production and labelling is carried out in accordance with the applicable EU directives and detergents as well as the GHS regulation.

Storage conditions:

Claramat can be stored in closed containers at 5-25 °C for at least 24 months.

Keep the container tightly closed. Protect from frost and direct sunlight.

Legal provisions:

Claramat is subject to the Chemicals Act, the detergents and GHS regulation as well as the transports regulations according to the transport of hazardous or dangerous goods.
