

DERMOMAT

DISPENSER SYSTEM

ONE SYSTEM – MANY APPLICATIONS

SUITABLE FOR NEARLY ALL AREAS

Description:

- Small mounting surface
- Uniform appearance
- Simple commissioning
- Easy handling with little effort
- Compact space-saving case
- Lock-out function permits only the use of your own cartridges

Application area:

Our new DermoMat dispenser system is the perfect solution with the latest dependable dosing technology for our washes, disinfectants, industrial hand washes, skin protection and care products.

You do not have to determine any more, in which dispenser which product has to be placed. Instead you can always adapt your skin protection, cleansing and care products to the current circumstances – without having to exchange the dispenser.

Our intelligent dispenser system provides important data to the central supply management about the hand hygiene of employees and to provide ideal conditions for important measures and decisions. Therefore a special software system is available.
